

SunSquare® SunSail
TEXTILE ARCHITECTURE

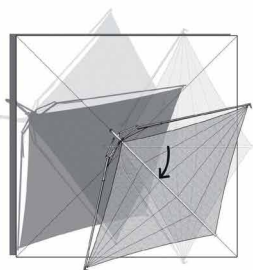

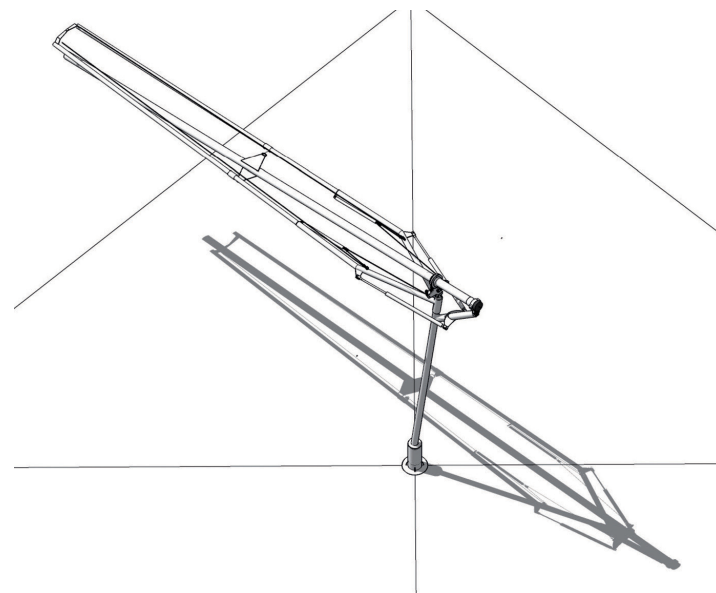

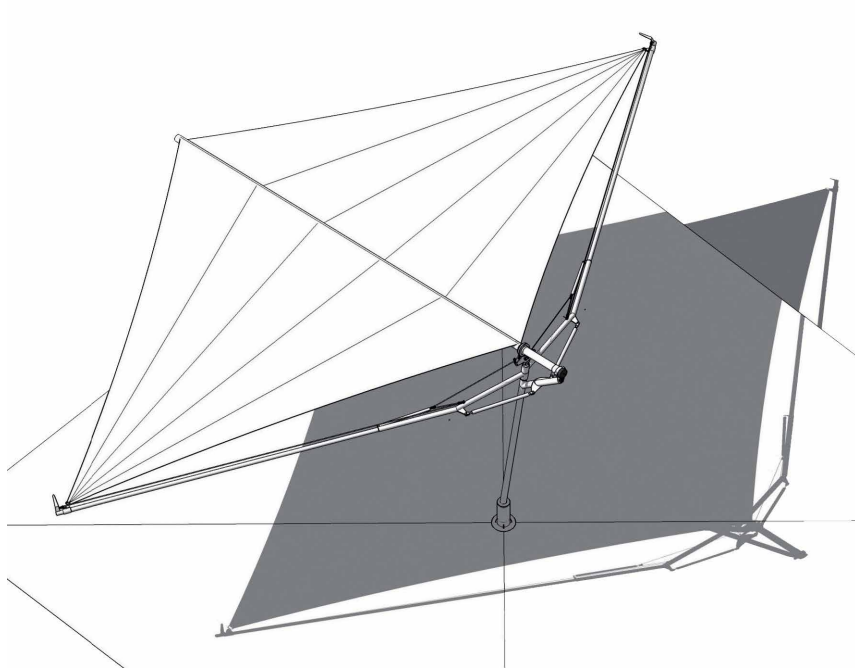

FOLD & ROLL

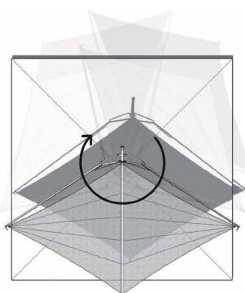

Die 270 Grad Verdrehbarkeit zaubern aus dem 30 m² Segelschirm einen 75 m² großen Sonnenschutz. Wenn der Wind zu stark wird, klappt das Armsystem automatisch ein, und das Segel rollt sich zusammen.

The 270 degree twistability conjure from the 30 m² sail screen a 75 m² sunshade. When the wind gets too strong, the arm system automatically folds in and the sail curls up.
